English and Maths:

A good standard of English and maths is essential when working in any environment which is why they are included in all apprenticeships.

We will assess your current level of English and maths to identify any support you may need, and depending on your current qualifications, we will agree on the level of English and maths you will need to complete.

This may include taking English and maths qualifications at Level 1 or Level 2, but if your current qualifications mean you don't need to complete further maths or English, we will still help you to develop these skills during your apprenticeship. If you don't have any current qualifications, don't worry, we will support you to achieve these essential skills.

The programme is delivered during normal working hours, making it a real opportunity to learn while you earn. Timescales for completion depend on the individual, but the qualification takes a minimum of 12 months.

Assessment:

To achieve a pass for the full qualification, you must achieve all the units in the stated qualification structure; you will do this by producing a portfolio of evidence. You will also take part in Functional Skills Tests for Maths, English and ICT.
